

**The Hungarian Forum for the Cooperation of Trade Unions (SZEF) stands in solidarity with the National March of Discontent in Poland by the All-Poland Alliance of Trade Unions (OPZZ) on the 27<sup>th</sup> of September 2025**

SZEF, as the Hungarian public sector trade union federation, expresses its solidarity with OPZZ's "National March of Discontent" on September 27, 2025!

In both Poland and Hungary, we see every day that the burden of economic and political crises is being shifted onto workers. Government tools may differ, but government goals are the same in both countries: less state responsibility for public services, longer working hours, and greater burdens on workers.

Among the demands of the September 27 march, we consider the following to be particularly important: genuine social dialogue, strong public services, secure jobs, decent pensions, and affordable housing.

The demands of OPZZ are SZEF's demands as well!

In Solidarity,  
Csaba Csóti  
President  
SZEF

Budapest, 25<sup>th</sup> of September
